## Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:  
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☐ Claims Nos.:  
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. ☐ Claims Nos.:  
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

## Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

The inventions of claims 1-16 have a common matter relating to an ultrasonographic system including an examiner side device for making diagnosis of a remote examinee by using an ultrasonic wave image via a communication line and an examinee side device of the examinee side. However, the search has revealed that the aforementioned configuration is not novel since it is known at the time of the application (for example, see documents Yutaka SHIMIZU Choonpa Enkaku Shindan System no Shisaku to Internet o Kaishita Gazo Haishin Enkaku Seigyo no Kokoromi, Journal of Medical Ultrasonics, 15 November, 2003 (15.11.03), volume 30, No. 6, p.J773 and JP 2002-282251 A (GE Medical System Global Technology Company LLC), (Continued to extra sheet)

1. ☒ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

### Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
- ☒ No protest accompanied the payment of additional search fees.

Continuation of Box No. III of continuation of first sheet (2)

02 October, 2002 (02.10.02).

Accordingly, the aforementioned configuration cannot be a special technical feature within the meaning of PCT Rule 13.2, second sentence.

Consequently, it is obvious that the inventions of claims 1-16 do not satisfy the requirement of unity of invention.
